

Classified Table

Type (abbreviation in bold style)		Contents by Use
1	Crystal Units (Industrial & com) Quartz Crystal Units for Industrial and Communication Use	Radio Communication systems - <i>Mobile phone, PHS, DECT, Mobile communications base station, Business-use radio, Broadcast equipment, Wireless LAN, Bluetooth, Navigation, Keyless entry, LAN in car</i> Telecommunications systems - <i>Telephone or Cordless phone as terminal machine, Switchboard or Transmission equipment as network related apparatus</i> Radio application equipment - <i>Radar installation, Radio-position-finding equipment, Telemeter tele control</i> Electronic application equipment - <i>Cleaning equipment, Welding machine, Medical equipment, Surveillance camera, Studio television camera</i> Electronic measuring instrumentation
2	Crystal Units (Tuning fork) Quartz Crystal Units with Tuning Shape for Watch and Clock Use	Electric device which uses a tuning fork type crystal oscillator - <i>Watch, Clock, Mobile phone, Personal computer, Peripheral equipment</i>
3	Crystal Units (Automotive) Quartz Crystal Units for Automotive Electronics Use	Control and safety device of a car - <i>Excluding AV equipment, Navigation, Keyless entry, LAN in car</i>
4	Crystal Units (Consumer) Quartz Crystal Units for Consumer Use	AV equipment - <i>Car audio, TV, VTR, DVD, DSC</i> Personal computer and peripheral equipment, OA equipment, Game machine, Home electronics - <i>Excluding Tuning fork types</i>
5	Oscillators (Industrial & com) Crystal Controlled Oscillators for Communication and Industrial Use	Same to Type 1
6	Oscillators (Consumer) Crystal Controlled Oscillators for Microprocessor Use	What is used as a source of a clock signal of the electric device as a personal computer and peripheral equipment, OA equipment, a game machine, home electronics
7	Crystal Filters Quartz Crystal Filters for Communication and Consumer Use	Electric device at large which uses a crystal filter - <i>Mobile phone, Mobile communications, Business-use radio</i>
8	SAW Devices SAW Devices for Communication and Consumer Use	Electric device at large which uses a SAW device - <i>Optical communications, Mobile communications, Radar, Satellite communication</i>
9	Optical Devices Optical Devices such as Crystal Optical Low-pass Filter and Crystal Optical Phase Plate	Electric device at large which used the optical device - <i>DVC, DSC, CD-R/W, DVD</i>
OUT-OUT		What is making a direct order received and a sale by the dealings which do not go via domestic among overseas production products in the overseas base (manufacture and sale)

Revised on December 24, 2003

Note1: The above-mentioned types are taken as the product which uses crystal.

Note2: Synthetic quartz crystal, a crystal wafer, and a crystal blank do not included.
